I was interested in disability evaluations, specifically to have better knowledge in how to do them, and so I went through the program, which was five courses of education, and then took the test, became certified and actually I was a charter I was a charter member of that organization. And then I go to about a meeting every year or every other year that the academy gives, go to the annual meeting about every two to three years. Back in 1987 or around that time, were you doing more disability evaluations than you are now? It sounds like a lot of work for one percent of your time. Well, I do, generally, two disability evaluations per week and but it's helpful not only in the disability evaluations that I do on	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 9 20 21 22 23	AQ AQ A Q A	description of the ethical concepts involved in forensic medicine. Do you have a copy of those, I want to call them, guidelines, for lack of a better word? I may. I don't know for sure, but I may. If I wanted to get a copy of those, I could get them from the American Academy of Forensic Medicine? I suspect you could. Where are they located? Where is their national headquarters, do you know? No, I don't. Do you remember what any of those guidelines about the ethical requirements stated, offhand? They were pretty much what you would think, that you have to have a relationship in which you're acting as an expert witness, that you don't take one side or another side, that you try to give your fair and balanced opinion regarding the facts that are presented to you. About how many lumbar laminectomy procedures do you perform a year? A little over a hundred.
